MATHUEN CAPTURED.

London, March 10.—General Mathewson and four guns have been captured by General Delany.

WESTERN.

Winnipeg, March 10.—Two returning members of South African constabulary in a Winnipeg hotel; they were much disgusted with the treatment of the Canadians on their return.

Premier Dunsinuir was threatened with death if he attended a bye-election meeting in Victoria, B. C. Politics take place to-day.

Messrs. MacKenzie & Mann have secured the island railway running from Nanaimo to connect with their C.N.R. system.

Gold bricks from the Mikado mine, valued at \$7,000, have been taken to Portage, the results of two weeks' run.

David Marshall, arrested at Kingston, Ont., for robbery near Oka River, Man., has been taken to Brandon.

Rev. Mr. Vincent, in Winnipeg, arranged the Roblin government and the referendum in a sermon yesterday.

The organizer of the Prohibition League has given a report of the progress of the campaign in Manitoba.

Speaker Hespeler, of the Manitoba Legislature, had a conversation with Prince Henry at Niagara Falls.

A burned bridge near Jackfish Bay, Ont., delayed the C. P. R. passenger service on the North Shore.

Forty-three candidates were confirmed in Holy Trinity church, Winnipeg, by the archbishop.

A French woman and her child had narrow escape from drowning in the Del River, Winnipeg.

The Montreal hockey team left for Winnipeg in a blinding snowstorm yesterday.

Dr. Horne Noquay, of Dawson, and Dr. Hoshan, of St. Louis, were married.

A child of T. R. Simpson's at Morde, received fatal injuries from scalding. Five funerals were completed on Saturday at the Brandon hospital.

GREAT BRITAIN.

Queen Alexandra launched the battleship "Queen" at Plymouth. The king had the keel of the "King Edward VII."

Major-General Earl Dunderdale has indicated his acceptance of the command of the Canadian militia.

Santos Dumont has been offered a big prize for an airship voyage from London to Birmingham.

The battleship Camperdown narrowly escaped colliding with two of the channel squadron.

The growth of O'Brien's power in Ireland is disquieting to the Unionist Ministry.

It is rumored that A. Store will run for a seat in the British parliament.

CANADIAN.

Recent discoveries have made the oil areas of the Dominion Coal Co.'s at Spruce, C. B., the largest in the world.

Jacques Bureau, M. P., of Two Rivers, one of the Liberal campaign speakers, is seriously ill.

The Columbia Handle & Lumber Co., factory at London, was destroyed by fire, loss \$30,000.

Ten members of the family of Arthur Boardman at Matane, Que., were burned to death.

The crews of the Newfoundland sealing fleet, comprising 5,000 men, have gone on strike.

Canadian Scouts discovered DeWet's large store of ammunition in a cave near Beld.

The Great Lakes navigation is expected to open two weeks earlier than last year.

Rev. Father Ryan, of Toronto, and Canon Omer, of York Mills, Ont., are dead.

Rev. T. Watson Smith, a Halifax Methodist clergyman, is dead.

A case of small pox has been discovered in Toronto University.

Antony is felt for the overdue Allan Lister, Harboursman.

Forty-two wholesale paper dealers have combined.

GENERAL.

Chinese officials are disturbed over the march of Russian troops into Manchuria to quiet bandit incursions.

The United States government has presented another note to Turkey in connection with Miss Stone's ransom.

Three United States officers will be tried in the Philippines for executing natives without trial.

Cecil Rhodes' serious illness is due to heart trouble.

The Eturia has reached the Azores.

FIRE AT PONOKA.

Ponoka, March 8.—At 12:30 o'clock on Thursday night the people of Ponoka were startled by the alarm of fire. The fire was at once discovered in Malheur's store.

Handful of extinguishers were soon on hand but of no avail and the carrying out of the goods soon began. From Baker's barber shop and to Algars' store and post office. The greater part of the dry goods were saved from both stores, but the bulk of the groceries was consumed, as was Algars' entire large furniture stock. Practically all the post office property was saved.

One through the kind providence of God, and the constant efforts of the citizens the whole business portion of the village was saved. The origin of the fire is unknown though Mr. Matsushita is inclined to believe it caught from his shoe pile. Mr. Matsushita estimates loss at \$7,000 and Algars & Co. at \$8,000. No definite decision relating to re-building has yet been made.

LOCAL.

—W. A. Brewster is putting a new chimney on his blast furnace.

—The school board meet to-morrow in the Secretary's office.

—The Deering Co. are building an addition to their implement shed on Queen's avenue.

—A fresh case of diphtheria was reported to the police last week. The house was promptly quarantined.

—J. Buxton, boiler inspector, went to Stony Plain this afternoon to inspect boilers in that district during the week.

—The regular meeting of the W. C. T. U. will be held on Wednesday, 12th inst., at 3:30 p. m. at the residence of Mrs. Beals.

—P. Wagner expects to open up a tailor shop in the building at present occupied by Mr. Dittich, who is removing to Strathcona.

—On Wednesday, April 2nd, an entertainment will be given at the school house at Agricola at 7:30 p. m. under the auspices of the English church.

—There will be a special meeting of the library and reading room committee to-morrow night at 8:30. Business of importance. All interested are invited to attend.

—J. Montgomery has opened out a flour and feed store in part of the building formerly occupied by W. J. Walker, next the Massey-Harris warehouse.

—W. Latimer returned last week from Peace river having taken up portions of the machinery for the new H. E. Co. mill at Vermilion. The entire trip occupied 31 days.

—The Presbyterians of the West Beaver lake district propose erecting a new Presbyterian church. A transfer of a site of two acres has been made by Mr. R. A. Wallman.

—Medicine Hat News: A challenge was sent last week by the hockey club to the Strathcona hockey team asking for a game here. No definite arrangements have been made.

—To-day is the date of the opening of the London fair sales. This is the largest sale of the year when the Hudson's Bay Co. and Langman & Co. offer their large stocks, with the exception of certain lines.

—Winnipeg Telegram: E. Edwards, a member of the Welsh colony in Patagonia, is at present in Manitoba, looking over the country with a view to settling here, and it is stated has already purchased land near Argyle.

—A social under the auspices of the Ladies Aid society of the Presbyterian church will be held at the residence of Mrs. James Lauder, on Thursday evening. A programme will be provided consisting of games, refreshments, etc.

—Contrary to announcement the third match in the series for the Calgary Brewing Co. cup between the Strathcona and Edmonton hockey teams will be played at the Strathcona rink on Saturday evening.

—Rev. D. G. McQueen returned last week from attending the joint meeting of the Home Missions Committees of Manitoba, British Columbia and the Northwest Territories and occupied his pupils yesterday. The committee met in Winnipeg to deliberate on matters in connection with western missions.

—Sheriff King left this morning in charge of the prisoner Rector for Redoubt. During his visit here the sheriff visited several settlements and expressed himself as surprised at the advantages offered by the country. He was also much pleased with the courteous treatment of the Canadian officials.

—The Alberta Land Co. and John Ross & Co. sold the Geo. Hutton farm of 800 acres at Sturgeon river, to P. A. Putnam and William Cross, of Minnesota, at \$14 per acre cash. Mr. Putnam says he never saw as nice a farming country. He considers the opportunities offering here to young men unsurpassed anywhere.

—Messrs. C. Pratt and C. Cornelison, formerly of Spruce Grove, have located at Frank, Alta. In a communication Mr. Pratt reports Frank as a very progressive town. A considerable number of buildings are under way including a large hotel. Mr. Pratt is erecting a double store with an opera house overhead.

—Regina Leader: Tom Lemack, charged with being before Judge Richardson on Tuesday and the case was adjourned until the 18th inst. It is not unlikely, however, that the trial will not be then, as there are 32 cases of small pox at Lebert where the witnesses reside and Dr. Patterson, doctor in medical health officer reports that it would not be wise that the witnesses should leave the infected district for Regina. Favel, at present in Regina jail, will put on his trial on the 18th for accessory after the fact in the murder at Port Qu'Appelle about a year ago.

PERSONAL.

—Major Belcher was in town this morning.

—J. Pollard has taken a position in Lubbock's livery.

—E. Sibbald has taken a position with MacDougall & Secord.

—R. Hockley has been confined to bed several days with bronchitis.

—Miss McBroome, of J. M. Closson & Co., returns this week from the east.

—Messrs. Hallier & Aldridge expect to occupy their new stand on Thursday.

—J. Lundy, of Guelph, Ont., came in Saturday to take a position with Ross Bros.

—Mr. and Mrs. S. B. McNamara, of Portage la Prairie, are expected in this week to spend a few days in town.

—Mr. Taylor, of the C. P. R. offices, Montreal, came in on Saturday evening to visit his brother, Alex., and mother here. Mr. Taylor leaves to-morrow for Montreal.

OPERATOR AT STAR.

H. J. McDonald came from Qu'Appelle last week to take a position as operator at the Government telegraph station at Star. Mr. McDonald was driven out to Star by W. McKay, who returned on Saturday. It is presumed that the office at Star is to be kept open continuously in the future.

RESIDENT JUDGE APPOINTED.

On Friday evening Secretary-Treasurer Kinnaird received a communication from F. Oliver, M. P., informing the council of the appointment of Mr. Justice Scott as resident judge at Edmonton.

The information was authoritative having been communicated to Mr. Oliver from the minister of justice.

CURLING.

Friday evening: Lauder defeated Ibbotson, H. B. Co. cup.

McCauley defeated McDonald in the finals for the Blue Ribbon cup and will hold the cup for the year.

No rink competitions were pulled off on Saturday.

The only games boarded are Cushing vs. Fraser, finals for the Cigar Co. cup, and Fraser vs. McCauley, finals for the Hardy cup.

NEW ADVERTISEMENTS.

A SOCIAL.

EDMONTON BULLETIN MARCH 10, 1902.

THE WATERWORKS PROPOSITION

The proposition to install a system of waterworks at the cost of \$80,000 is the most serious financial undertaking which has ever been faced by the ratepayers of Edmonton, and a proposition of such magnitude financially and offering such a range of subjects for consideration that the exact nature, extent, and capacity of the system which it is suggested to install cannot be too clearly presented to the ratepayers.

The system proposed is based on the report of Mr. W. Chipman, a report too exhaustive to be reproduced verbatim. Accompanying the report is a plan of the town showing the suggested location of each part of the system. Both plan and report are open for the investigation of ratepayers at the town office.

The source suggested for the water supply is the river. Practically only two sources existed, excepting the expensive experiment of boring. These sources were Mill Creek and the river. The latter has seemed preferable to Mr. Chipman both because Mill Creek drains a portion of fairly well settled country and because of the larger volume of water in the river and its consequent preference from the standpoint of purity. The water must be taken from the river at a point above the entrance of drainage and sewerage from the town. Two points for taking water from the river are suggested, one between 4th and 6th streets and the other near the old H. B. Co's fort near Eleventh street.

It is proposed to draw the water from the river by means of pipes laid low enough to escape damage from the ice and also to avoid contingencies during low water. These pipes would lead to a sedimentation basin 100x150 feet in dimensions and 9 feet deep. This basin would have a capacity of 500,000 gallons and it is pointed out as necessary in order to remove the floating sand from the water before running this through the filter. To supply the water to this basin would require two centrifugal pumps, each operated by a small engine. The pumps would be located near the bank of the river and enclosed in watertight wells. The capacity of each of the pumps recommended is 750 gallons per minute, raised to a height of 50 feet. The bottom and sides of the basin would be covered with puddled clay and planking placed around the upper sides to prevent caving and washing in.

From the sedimentation basin the water would be forced by means of a compound duplex pump through the filter. The report recommends two steel mechanical filters each of the capacity of 250,000 gallons per day, but in the estimated cost of the plant only one filter is mentioned, consequently this is presumed as sufficient for the present. From the filter the water would be forced into the reservoir from which the mains would be supplied. Provision is made that in case of fire the reservoir could be disconnected and direct connections made with the pumps.

The reservoir or water tower proposed is a steel tank with a capacity of 60,000 gallons, mounted on a steel trestle high enough to give the necessary pressure on the mains. The pressure for domestic purposes is estimated at 115 to 140 lbs. per square inch and in case of fire could be raised to 150 or even to 180 lbs.

The distribution system proposed consists of some 21,000 feet of mains, varying in diameter from 4 inches to 1 foot. These would be laid along portions of 2nd, 3rd, 4th, 5th and 6th streets, H. B. Co. Victoria avenue, Jasper avenue, Howard street, Rice street, Elizabeth street, May street, Queen's avenue, 4th street, Fraser avenue, Nanay avenue, 5th street and Kintore avenue.

The aggregate cost of the system as suggested is \$80,000 made up of the following items:

Land,	\$1,000
Intake pipe,	2,000
Two pump wells,	2,000
Building and chimney,	8,000
Two boilers, set,	3,500
Two centrifugal pumps and engines,	1,500
One compound duplex pumping engine,	3,000
One filter and connections,	4,000
Sedimentation basin,	3,000
Distribution system,	40,000
Water tower,	8,000
Engineer and superintendence,	3,000
Legal expenses, printing, &c.,	1,000

The distribution system contains provision for fifty double nozzle hydrants.

The system as outlined is estimated as sufficient to supply the town with water for domestic purposes and use in case of fire until the population reaches 4,000. It would then be found

necessary to add to the plant a second pumping engine, a second filter, a third boiler, and to enlarge the sedimentation basin and pump house.

Mr. Chipman also discussed the question of operating expenses and revenue. The operating expenses for the first year are estimated at \$2,000 besides fuel and thereafter at \$1,000 salary for the engineer in charge and \$2,000 for fuel.

The plant is estimated to be self-sustaining at the end of five years. The water rate is calculated at \$20 per year, which with two hundred services would provide a revenue of \$4,000. The expense account could also be charged with an annual hydrant rental of \$60 each which sum would be about the fee charged by a private company. This is calculated as furnishing another revenue item of \$3,000. It is also calculated that water could be sold to manufacturers, railways, &c., to produce \$500 more. The ordinance provides that a rate of 4 mills may be charged on property fronting on mains for fire protection. This is estimated to yield \$3,000 revenue. The amount thus calculated possible to raise annually is \$10,500. The fire rate would probably be dropped after the first year and the revenue is calculated to then amount to \$7,500.

It is suggested that the debentures should run for 30 years and bear interest at 5 per cent. The interest for the first year would be \$4,000 and decrease slightly with each succeeding year. The sinking fund necessary to meet the principal in 30 years is placed at \$1,202. This would bring the expenditure on account of installation for the first year up to \$5,202 and it would decrease annually for the life of the debentures.

A SATISFACTORY APPOINTMENT

The news of the appointment of Mr. Justice Scott as resident judge at Edmonton will be highly satisfactory to the residents of the Edmonton district.

For some time past, and more especially during the last year, judicial business here has been frequently very seriously delayed by the postponing of the sittings of the supreme court from time to time to enable His Lordship to attend sessions in Southern Alberta. Such delays are necessarily both inconvenient and expensive to all parties concerned. While under the new arrangements the district to be covered by the resident Justice will probably extend southward to Red Deer, it should be possible to hold sittings here frequently enough to prevent the accumulation of business.

Mr. Justice Scott is comparatively well known throughout the district, he having been the presiding Judge at nearly every sitting of the court here for some time, and his appointment as resident judge will be very satisfactory to the town and district.

GREEN GOODS OPERATOR.

A gentleman in town last week received a communication from an American party offering to supply him with "duplicate" American bills of the one, five and ten dollar denominations, printed on silk fibre paper and possible of detection only on reaching the treasury department at Washington.

As similar communications may have been made to parties of less integrity the foregoing paragraph is published as a warning to the public to be on guard in accepting American bills.

Canada's War Cry.

Toronto Telegram. "Market for market or tariff for tariff" is the principal which may not force the United States to purchase Canadian products.

Better even than a share of the United States market will be the development of Canada's power to exist without the help of American raw materials and manufactured articles.

Under the present system the United States enjoys the advantages both of free trade and protection. An approach to free trade lets the products of the United States into the Canadian market, and protection of the most exalted type keeps Canadian products out of the United States market.

The injustice of the present system of trading between the Republic and the Dominion was worthy of John Charlton's powerful condemnation. The cry of "market for market or tariff for tariff" may have little power of good times, but in a period of depression such a cry could stampede the country in favour of the party that raised it.

YOUNG LIBERALS MEET.

The annual general meeting of the Young Men's Liberal Association was held in Sandison's Hall on Friday, evening, there being a fair attendance.

The president's report showed the association to be in a flourishing condition, the membership roll containing some sixty names. A half dozen new members joined at the meeting.

Following are the officers elected for the coming year:

Honorary president, F. Oliver, M.P.
Honorary vice-president, J. H. Garvie.
Honorary 2nd vice-president, A. B. Campbell.
President, C. W. Cross.
1st vice-president, R. J. Manson.
2nd vice-president, Dr. Roy.
Secretary-treasurer, P. E. Lessard.
The executive consists of Messrs. R. McIntosh, P. Campbell, S. Cloutier, J. H. Fildes, J. H. Shedden, and J. Hovey.

The utmost unanimity prevailed throughout the meeting and entire confidence was expressed in the present administration and in the sitting member.

President Young, of the liberal association, was present and congratulated the association on its strength and on the work being done.

A resolution was unanimously passed that a banquet be tendered Mr. Oliver on his return from Ottawa.

SCHOOL BOARD MEET.

The trustees board of the public school met on Feb. 21st in the secretary's office. All the members were present except the chairman, Mr. A. Taylor. H. C. Taylor was appointed chairman of the meeting.

K. A. McLeod reported that an additional school room had been secured at a rental of \$8 per month, the necessary furnishings put in place and classes opened in the room.

The annual statement and report of the auditor were presented.

The tender of J. Milner to supply coal to the schools for the year was accepted. The price to be paid is \$2.50 for coal from the town mine and \$3.00 for coal from Clover Bar.

The secretary wrote asking for an increase of salary. The request was granted, the salary being raised from \$50 to \$30 per month.

A bill of \$7 drayage on the corner stone from the Presbyterian church to the new school building was passed.

The following accounts were passed for payment:

J. A. Stovel,	\$ 50
Pay sheet,	6.15
J. Milner,	37.50
H. D. Johnson,	62.00
J. Hillman,	5.00
W. J. Richardson,	12.00
K. W. MacKenzie,	11.70
R. J. Manson,	221.60

NOTICE IS HEREBY GIVEN that the CANADIAN NORTHERN RAILWAY COMPANY will apply to the Parliament of Canada at its next Session for an Act empowering the Company to construct the following lines of railway, namely:

1. From a point on the Company's line between Port Arthur and Fort Frances, thence north-easterly and south-easterly to the City of Quebec, and from points from this line to Port Arthur, Ottawa and Montreal;
2. From a point on the Company's line at or near McCreary Station, Manitoba, to the southerly boundary of Manitoba;
3. From a point on the Company's line at or near McCreary Station, Manitoba, to the southerly boundary of Manitoba;
4. From a point on the Company's line near the narrows of Lake Manitoba to a point between Edmonton and the Yellow Head Pass;
5. From a point on the line east of Edmonton in Alberta or Saskatchewan to the Red Deer River;
6. From a point on the Company's line near Hanging Hide River (Saskatchewan) to the mouth of the Carro River near Pasmisium.

ALSO increasing the capital of the Company and empowering it to issue stock, debentures or other securities in connection with the acquisition of vessels, hotels, terminals and other properties; and to acquire and utilize waterworks for the generation of electric and other power and to dispose of surplus power, and to acquire or establish pleasure resorts; and to aid settlers upon lands served by the company's railways; to improve the Company's lands; and to acquire and hold lands outside of Canada; ALSO confirming the amalgamation between the Company and the Edmonton, Yukon and Pacific Railway Company.

Dated 24th December, 1901.

Our Railways and Canals.

The report of the department of railways and canals for the last fiscal year has been published. The report deals with the railways directly controlled by the government, and also with the subsidies have been granted or authorized.

The government maintains three lines of railway: The Intercolonial, the Windsor branch, and the Prince Edward Island railway. The gross earnings for the year of these roads amounted to \$5,213,381.24, an increase of \$399,219.37 over the record of the previous year. The working expenses were \$5,739,651.51, an increase of \$1,073,823.48.

The most interesting portion of the report for Northern Alberta readers is that dealing with the survey made from Edmonton to Teslin lake in connection with the proposed railway to the Yukon. The report says:

"During the seasons of 1898, 1899 and 1900, in accordance with parliamentary provisions, surveys of routes have been engaged in the work of endeavoring to find a feasible route for a railway, on Canadian territory entirely, to give communication with the Yukon district from a point on an existing Canadian railway, and also from a Canadian port on the Pacific coast, and the approximate cost of such a railway. Reports from the officers in charge of these surveys were printed in the annual reports of 1898-99 and 1899-1900.

"Starting from Edmonton, the present northerly terminus of the Calgary and Edmonton railway (leased to the Canadian Pacific railway), a point distant 192 miles north of Calgary on the main line of that company, a feasible route has been found to Lake Teslin. The distance to the lake (northerly end) of this lake is 1,240 miles, and the estimated cost of construction at prices for similar work in the eastern section of Canada is set down at \$2,908,609; to this estimate, the chief engineer adds, for the difference between eastern and western prices, 60 per cent, making the estimated cost of construction \$3,653,774; the cost of equipment is estimated at \$1,866,650, making the total estimate for the construction and equipment of this 1,240 miles, \$5,520,424.

By the construction of a line of railway from a point on this railway—the confluence of the rivers Sisseton and Skeena—the above distance of 1,240 miles, an excellent canal terminus would be obtained at Port Simpson, 590 miles north from Victoria, the terminus of the proposed line. This route, which is a desirable one for the purpose, this branch runs down the valley of the Skeena; its length would be 307 miles, and the estimated cost of its construction, at eastern prices, \$9,298,400, or, adding 60 per cent for western prices, \$14,577,440. The cost of equipment is set down at \$8,000,000, making the total estimated cost of this 307 miles \$22,577,440.

For a line of railway from Port Simpson to Lake Teslin, following the route above indicated, a distance of 739 miles, the estimated cost would be at western prices, \$28,050,560, and of rolling stock, \$1,000,000, or a total for construction and equipment of \$29,110,560.

"From the head (southerly end) of Lake Teslin, by a descending navigation, lake and river, communication, except at certain stages of low water, can be made with Dawson City, a further distance of about 625 miles. By the construction, however, of 150 miles of railway from the head of Lake Teslin, northerly and westerly, communication would be made at White Horse—the present northerly terminus of the White pass and the Yukon valley—with the existing system of river navigation, now in full operation to Dawson City, a distance of about 450 miles. The cost of building this line, at western prices, would be estimated, Mr. O'Dwyer (government surveyor) states, in the absence of definite data, at \$20,000 a mile (exclusive of right of way), allowing an addition of 60 per cent for the difference between eastern and western prices, would bring the cost of building this 150 miles line to \$30,000,000, or, with equipment, \$50,000,000, and would make the total cost of building and equipment for a road from Edmonton to White Horse \$20,520,000 and for a road from Port Simpson to the same point, \$34,110,000.

The total payments of subsidies to railways made during the year were \$2,512,328.80, of which sum the Canadian Northern received \$537,600 and the Great Northern \$435,323.11, these being the two largest items. From July 1st, 1901, to Dec. 31st, 1901, the Canadian Northern received \$699,970.

With the exception of the year, 1898-99 the subsidy payments last year surpassed all previous records.

The report is accompanied by several maps, including a sketch of the Edmonton-Teslin lake survey.

Manitoba Markets.

Commercial.

Wheat.—The past week in the wheat markets has not been just so dull as the previous week, although it cannot be said that the difference is very pronounced. On Monday the American speculative markets fairly broke down and the price per bushel from the previous day's closing, but since then they have been cautiously recovering, the lost ground and yesterday closing prices were at 1-2 to 3-4 decline from the closing prices of a week ago. The decline evidently came about through tired long letting go their wheat on a naturally weak market, and the more offers for sale only made the market go lower.

Country markets.—The country wheat market is very quiet owing to lack of elevator accommodation. Where wheat is being bought prices rule from 51c to 61c per bushel.

Oats.—Offerings of oats are quite liberal and this market is well supplied from Manitoba country points. It seems that there are plenty of oats to be had, and the only difficulty is to get cars in which to ship them. There is still some all rail business being done with points in the far east. The market is easy, but prices remain unchanged, at 35c to 36c per bushel for feed grades in car lots on track here. Prices being paid to farmers at country points for No. 1 white oats range around 28c to 30c. Brandon rate of freight. Street oats are worth 30c to 33c per bushel.

Father Lacombe Celebrates Birthday

At Montreal despatch of Feb. 28, says: Father Lacombe, the western missionary, celebrated the 75th anniversary of his birth to-day, and is hale and hearty.

During the morning he dropped in to the C. P. R. general offices and received the congratulations of Sir Thomas Shaughnessy and other officials of the company. He will not go west for a couple of weeks.

The Britain-Japan Agreement.

Below is reproduced the text of the agreement recently signed on behalf of Great Britain and Japan by Lord Lansdowne and Hayashi, Envoy Extraordinary from the Japanese emperor to Great Britain.

The governments of Great Britain and Japan, actuated solely by a desire to maintain the status quo and general peace in the extreme east, being moreover specially interested in maintaining the independence and territorial integrity of the empire of China and the empire of Korea, and in securing equal opportunities in those countries for the commerce and industry of all nations, hereby agree as follows:

Article I.—The high contracting parties, having mutually recognized the independence of China and of Korea, declare themselves to be entirely unflinched by any aggressive tendencies in either country. Having in view, however, their special interests, of which those of Great Britain relate principally to China, while Japan, in addition to the interests which she possesses in China, is interested in a peculiar degree politically, as well as commercially and industrially.

Article II.—The high contracting parties recognize that it will be inadvisable for either of them to take such measures as may be indispensable in order to safeguard those interests if threatened either by the aggressive action of any other power, or by disturbances arising in China or Korea, and necessitating the intervention of either of the high contracting parties for the protection of the lives and property of its subjects.

Article III.—If either Great Britain or Japan, in the defence of their respective interests as above described, should become involved in war with a third power, the other high contracting party will maintain a strict neutrality, and use its efforts to prevent other powers from joining in hostilities against its ally.

Article IV.—If in the above event any other power or powers should join in hostilities against that ally, the other high contracting party will come to its assistance and will conduct the war in common, and make peace in mutual agreement with it.

Article V.—Whenever, in the opinion of either Great Britain or Japan, the above mentioned interests are in jeopardy, the two governments will communicate with one another fully and frankly.

Article VI.—The present agreement shall come into effect immediately after the date of its signature, and remain in force for five years from that date.

In case neither of the high contracting parties should have notified twelve months before the expiration of the said five years the intention of terminating it, it shall remain binding until the expiration of one year from the day on which either of the high contracting parties shall have denounced it. But if, within the said fixed term of its expiration, either ally is actually engaged in war, the alliance shall, ipso facto, continue until peace is concluded.

Salomon Confesses.

Winnipeg Telegram: Usp Salomon, the Galician farmer who was arrested on the charge of murdering his wife, and who was brought to the provincial jail here, is said to have confessed the terrible details of the crime were told after Salomon's arrival here, and J. Hillyard Leach, who has been retained by the prosecution, is responsible for the announcement that the brutal foreigner has told enough of his terrible deed to hang him.

Salomon's confession in brief is as follows: He had not been on good terms with his wife for some time. She was much his superior mentally and socially and made no attempt to seem to be his equal. While attempting to fulfill her duties as a good wife, the woman was far from contented and according to the husband frequently upbraided him for his unhappy lot in life.

Matters went from bad to worse on the lonely prairie farm, and quarrels were of frequent occurrence between the husband and wife. The wife, who was months ago that he could not live happily with his wife, and when this conclusion was forced upon him by their daily quarrels, he decided to take the law into his own hands. He planned to wait for a long time he lacked the courage to do. The day that Mrs. Salomon was found by her husband, returning from a trip to Sturthorn to find her in a semi-unconscious state on the floor of the little hut. She had in descending from the loft where she had gathered some peas for dinner missed her footing on the ladder, and she lay on the floor, her head against the wall. He was in a dazed and helpless condition that Salomon entered the house. He says that his first thought was to carry out a long meditated crime. The accident the unfortunate woman had met with favored his terrible plan. He went to the loft and easily convinced his neighbors that his wife had fallen from the loft ladder, and sustained injuries which resulted in her death in his presence.

While the helpless woman was writhing feebly in her agony, all the pent up rage and hatred harbored in the uncultured man's mind for months burst forth, and he struck her with his powerful fists he struck her repeatedly about the face and head until she lay a bleeding unrecognizable object on the floor.

Salomon states with emphasis that he used only his fists to batter the poor woman's head and face into a pulp. He says that the neighbors believe that he had been punished. He tells the awful details of his crime without much emotion. In fact so anxious was he to convince his listeners that he used only his hands to kill his wife that he told how he struck the defenceless woman first with his right fist and then with his left, until her moans ceased, and his strength was well nigh exhausted.

This is the substance of the story the murderer told the officials. He can talk very little English, and his account of the crime was rambling, and at times incoherent. It appears that when the twitching form of his wife had ceased to move, Salomon lay down, and thought out a plan of escape from punishment. He expected to be hanged, and he expected a terrible death. He proceeded to the nearest neighbors and informed them that his wife had fallen from the loft and was dead. They gathered in a hut and one look at the bruised, crushed head and face convinced them that no fall from such a height could have

caused such injuries. But Salomon was not arrested at that time. The English speaking settlers, however, gave the murderer no chance to escape. He was carefully watched, and it was seen that he attended the inquest. When the arrest took place after the inquest the Galician was warned as usual, by the officer who had him in charge.

In addition to the confession made by Salomon, it is said that witnesses will be produced at the trial who will testify that Salomon on several occasions threatened to kill his wife. One witness will, it is stated, swear that the murderer prior to his visit to Sturthorn on the day of the murder, told his wife, that if she did not throw herself into the river or drop into the well before he returned, he would kill her.

Since his incarceration in Winnipeg Salomon has eaten heartily and has been the more very little trouble. He has apparently resigned himself to his fate, and has turned his attention to religious matters, being frequently found in a devotional attitude.

TRANSIENT ADVERTISEMENTS.

WANTED.

At once young man or boy that has worked at the harness business one year or more. Apply to W. L. CALLOTT, Lacombe, Alta.

LOST.

A sorrel mare 3 years old, white face, light colored mane and tail, branded L. C. on right shoulder and C. B. on left shoulder. \$10 reward for information leading to recovery. CHAS. BRENNER, New Lunn.

NOTICE TO CONTRACTORS.

Plans and specifications may be seen up to Monday, 17th inst., at the office of H. D. Johnston, Architect, for the construction of a frame Presbyterian Church on the corner of 17th and 17th, by D. E. WILSON, Chairman Building Committee, 37-39, N. Main.

TEACHER WANTED.

For Spaul Public School District, Second class certificate. Apply to MALCOLM GROUT, 35-40c, Edmonton.

LOCAL MARKETS.

Wheat deliveries continue fair, the price holding steady and ranging from 35c for damaged or dented grain to 55c for good flouring quality.

Oat deliveries for the last week while fairly brisk on some days were on the whole light. The prevailing prices are 25c to 26c, but 27c and even 28c is paid for first class milling quality.

Beef, live is worth 31-4c to 31-2c and dressed 6c to 61-2c. The supply is about equal to the demand.

Pork, live, 4c to 41-2c. Dressed 6c; 5c was paid during the week for some choice porkers, but the prevailing price on foot is from 4c to 41-2c.

The demand for mutton is not great at present, but little is being offered. The prevailing prices are live, 41-2c and 6c for dressed.

Poultry was scarce during the latter part of the week. Chickens readily brought 10c per lb, while turkeys were very scarce at 121-2c. No geese nor ducks were on the market.

Potatoes remain nominal at 40c, with little demand.

Butter is coming in fairly plentifully at 15c to 20c.

Eggs are plentiful at 15c to 20c.

Hay offered freely on the market during the week at \$5 to \$6 per ton. Baled hay, for which there was considerable demand, brings \$8 per ton.

THE TWINE SITUATION.

Local dealers are disposed to regard the outlook for binder twine prices in an unfavorable aspect. The present wholesale prices range from 3c to 4c higher than at this season last year. Between February and harvest time last year the wholesale prices advanced 11-12c per lb, and they now stand at a further advance of 1-1-2c over this price. Twine which three years ago could be secured for 51-2c, wholesale, cannot now be obtained for 11c.

During the past few years there has been a scarcity of raw materials and this has left the market more capable of the manipulation of combines of manufacturers.

There is at present no indication of a decrease in price before the harvest season. Throughout the west the acreage sown to grain this year will be largely in advance of the grain area of last year and should favorable climatic conditions prevail the demand for twine will be proportionately greater. This would tend to stiffen rather than relax the price. On the other hand the failure of a crop in any of the grain producing regions of America might throw a surplus on the market and depress the prices accordingly.

STRATHCONA.

From the Plaiddealer.

The old immigration building is being moved this week to a location close by the new hall.

Mr. Dittich, merchant tailor of Edmonton, is about moving his establishment to Strathcona.

Mr. Doherty has re-opened a tailor shop in Strathcona and announces that he is again prepared to do business here.

Wm. Deitz, of Strathcona, has a contract for the construction of a steam drainage machine for the Northwest government. It is of the dredge type built on a scow and designed to float in the excavation it makes, being in a lake or slough. The machinery will be supplied by the Beatty Co., Welland, Ont. The first work of this machine will be done in the Victoria electoral district east of Fort Saskatchewan.

G. R. Taylor and W. J. Carr, under the firm name of Taylor & Carr have started a factory for the manufacture of pumps in Strathcona. They have purchased property on Whyte Ave. East and are putting in a steam plant. The pumps they make are of wood with porcelain cylinder.

The Canadian Northern grade has been built right up to the C. & E. at the proposed point of junction but as yet the connection has not been made. Ties have been distributed along the whole length of the new line and rails are also being placed ready for laying as soon as the connection with the C. & E. is made. No settlement has yet been made with Mr. Vogel so the grade is incomplete at this place.

Frank Furbrook suffered severe injuries in a run-away accident on Monday morning last. He was engaged in drawing lumber for Cushing Bros. from Strathcona to Edmonton. In the bottom of the load about 700 feet of lumber and on this were piled bunches of shingles. When nearing the bottom of the grade approaching the bridge some bunches of shingles slipped down on the horse's heels causing them to run away. The load upset and Mr. Furbrook was struck by it. His left shoulder and right hip are badly injured and it will be some time before he will be able to get about.

HOCKEY GAMES.

The professional men and the bankers met in a hockey game on the Thistle rink on Saturday evening. The teams playing were:

Professionals. goal Bridges. Cavan, point Jaffray. Harrison, point Jaffray. Acres, covers R. Johnson. Dolmage, forwards Williams. Griesbach, forwards Greenwood. Dubuc, B. Johnson. Till.

Most of the players were old hockey-ists, though somewhat out of practice and the teams put up an interesting game. The bankers proved too heavy for the professionals, winning out by a score of 7 to 2.

To-night the winners of Saturday evening encounter a team made up of accountants and should the prop-ositions of either team prove true the spectators will witness a battle royal. The bankers are flushed with their victory over the professionals and confident of adding another scalp to the tribal collection. The accountants, however, have many good hockey players and are not handicapped by the labors and bruises of a recent game.

The game of the season will be played to-morrow evening when two teams composed of ladies will struggle for supremacy contributing the proceeds to the public hospital. A ladies' team was organized here some time since and a challenge sent to the Strathcona ladies to face off and do battle for the palm. The southern ladies, however, were not game and a match has accordingly been arranged between the two following local teams:

Mrs. J. H. Morris, goal; Miss L. Umbach, point; Miss G. Robertson, and Miss A. Young, covers; Miss A. Brewster, Miss E. Matheson, and Miss C. Lauer.

Mrs. Cooper, goal; Miss M. Heim-ink, point; Miss M. Young, and Miss G. Walker, covers; Miss E. Lockhart, Miss J. Lauer and Miss M. Matheson, forwards.

The game will be supplemented by a chariot race in which each lady is drawn by three gentlemen in a skating contest.

On Wednesday evening the Strathcona team is expected to meet the home team in the third match of the series for the Calgary Brewing Co. cup.

LORD STRATHCONA'S GIFT.

Strathcona Plaiddealer.

Mr. Rutherford, secretary-treasurer of the public school board of Strathcona, received an agreeable surprise in Friday's mail, a cheque from Lord Strathcona for \$1,500 to be used in equipment of our public schools. He had heard of the success of the school here and has rewarded it with this handsome token of remembrance for which every citizen thanks him. It has not been decided yet how the money will be spent. The board and Principal MacKenzie are considering the matter carefully and we may rest assured that it will be put to good use, probably in establishing a science laboratory which is much needed.

AS OTHERS SEE US.

Calgary Herald, R. H. Bennett, M. L. A. returned last night from Edmonton where he has been on professional business. Mr. Bennett states that the north country is in a flourishing condition particularly in the town of Edmonton. Settlers are pouring in rapidly and the country is filling up at an astonishing rate. In Edmonton lots are increasing daily in value and are selling at high figures. One lot in the business portion of the city which recently changed hands at a little over \$2000 was sold the other day for nearly double the money. Prosperity is in the air and the people of the northern town are at present full of business.

The Concentration Camps.

The returns for February indicate that only 55 deaths occurred in the concentration camps in South Africa during the month. The total number of persons imprisoned in the various camps reaches 60,000.

METEOROLOGICAL.

Following are the observations taken at the government observatory here since Friday:

	Max.	Min.
Friday,	24	10
Saturday,	24	14
Sunday,	40	8
Monday,	40	21

BIRTHS.

Acton—At Edmonton on Saturday, March 8, 1902, the wife of E. Acton, of a son.

McLeod—At Edmonton on Monday, March 10th, 1902, the wife of K. A. McLeod, of a son.

Powell—At Edmonton on Friday, March 7th, the wife of King Powell, of a son. Still born.

MARRIAGES.

Scott—Guion—At the residence of Mrs. James Lacombe, Thursday, Feb. 27th, by Rev. F. G. Rickard, John Martin Scott to Olive Mary Guion, both of Lamerton.

DEATHS.

Norris—At Lacombe, on 27th February, Henry Earl Norris, son of Mr. and Mrs. W. N. Norris, aged 5 years and 6 months.

Capron—At Sturgeon River, on Saturday, March 8th, Mrs. Capron, aged 77 years.

Deceased was a resident of the Sturgeon river district for the past 20 years, and leaves five sons all residents in the same district.

The funeral, which was very largely attended, took place on Sunday afternoon at 2 o'clock. Service was held in the Methodist church and interment made in the Namsa cemetery. Rev. P. I. Thacker conducted the services in the church and at the grave.

The

Alberta Land Co.'y.

Represented by W. I. Crafts.

Has purchased another Block of Land, containing 20,000 acres, in the Beaver Lake, Vermilion and Birch Lake country. We have had our pick of these lands, and now offer them for sale at \$3.00 to \$3.50 per acre.

Young man, give this a thought. These lands in from 5 to 10 years will be cheap at \$15 to \$25 per acre. How can you make money faster? Get you a home and have it for you and yours. Do not let the golden opportunity go by.

We also have improved farms for sale in the vicinity of Fort Saskatchewan, \$7.50 to \$12.00 per acre, the richest and best producing lands that ever the foot of man trod on.

We have teams and land guides to show these lands, and if the right section corner stakes are not shown you we will not charge you one cent for the trip.

We solicit your trade and will give you a

deal. Call and get maps and information of these cheap lands.
